

GOLF BALL WITH TEXTUAL INSTRUCTIONS POSITIONED
THEREON

ABSTRACT

The present invention includes an instructional golf ball including a spherical body having an outer surface with a plurality of dimples formed therein. Situated on the outer surface of the body is instructional indicia. Such instructional indicia include text for providing guidance as to the manner in which a user should play the golf ball. During use, a user might read the instructional indicia while addressing the golf ball, and address and/or strike the golf ball in the manner indicated by the instructional indicia.
